

IT's on AGAIN

The Bluewave WINTER

Sand Change SPECIAL

It's your chance to save BIG \$\$\$

WHEN was the last time the sand was renewed in YOUR pool sand filter?

- Has it been 3 or more years since the sand media in your pool filter was replaced?
- Is your pressure gauge on your filter always showing a high reading (Over 100)?
- Did you find it difficult to keep your pool clean this past summer?

Answer YES to one or all of these questions and IT may be time for a sand change.

Get your sand replaced before the 30th August 2010 and you will save between 15–25% off normal price

It is recommended to replace

Sand Approximately every 3-4 years

Zelbrite Approximately every 5-7 years

Remembering also that in the past 3 years we have had Dust Storms and Fall-Out from Fires and Smoke. These factors, along with pool usage all contribute to the effectiveness of your filter.
